

Social Media and Collaboration Tool Use in Projects

14. The following question presents a list of possible uses for social media and collaboration tools. (It also presents a list of mediums you have indicated that you use in your project work.) Please place the number or numbers that correspond to each usage of social media next to the medium. For example, if Facebook is used by project staff to communicate with students, you would place a check in the educator to student column in the facebook row.

	Student <--> student communication	Student <--> educator communication	Student <--> mentor/advisor communication	Educator <--> mentor/advisor communication	Educator <--> parent/community	Educator <--> educator
